

Car Hire

Please find enclosed a booking sheet, an information sheet including prices and an illustrated guide to the cars available. We have had several prices over the last two months from various hire companies and we have decided to recommend probably the largest supplier of car rentals on the Island "Drive-A-Matic". Should you wish to book a car (no payment is necessary now) full payment by credit card, cash or travellers cheques will be required when the vehicle is delivered.

Delivery will be on Wednesday 20th October 2010 from 10.00 am and the cars will be delivered to All seasons Car Park by Europa Reception. Collection will be Tuesday 2nd November. We have included GBP rates to the nearest pound as of the exchange rate on 21 June 2010 being \$BD2.97 to one pound sterling.

If you are interested in a car or need further details then please contact me on 0208 698 1134 or complete the enclosed booking form and I will do the rest! In order to be able to supply the car of your choice I should be grateful if you could make your booking by no later than 1 September 2010

I cannot stress too strongly the advantages of having a car for your use to get the best from the holiday. A lot of beautiful places on the Island are only accessible by car especially on the East Coast where the scenery can be quite dramatic. With exactly the same driving regulations as here in the UK including driving on the left*, this is an opportunity that shouldn't be missed.

I look forward to hearing from you.

Graham Watts
Tour Organiser

* Road maps of the island will be issued free of charge with the hired car,
